OUTLAWS OF APACHE LEAP

An Outing Story of Tempe and Pinal, by Dane Coolidge.

One of the most interesting stories in September Outing is "The Outlaws of Apache Leap." The writer is Dane Coolidge, a well known short story writer who spent last winter and part of the spring at Tempe, making extensive side trips to the cattle ranges on the adjacent deserts. It was on one of these trips that he secured the local coloring for his story. It is illustrated by photographs taken by himself and many of them will be easily recognized by Arizonians.

The outlaws of the story are not as may be supposed renegade Indians but renegade cattle of the ranches of Jas. E. Bark, Jack Prazier and others who control a part of the country described by Mr. Coolidge in "Outing." "Away out in the west there is a nice country where the mountains are all sharp, the canyons deep and the vegetation spiny and bitter. This country belongs to anyone who will live in it, and goes by the name of Pinal. If any one should get frozen out of Pinal, Arizona is full of other large hot districts whose most important function, so far determined by the casual observer, is to hold the rest of the world together. Pinal used to be an Apache stronghold. Then it yielded its millions in silver and gold and then it became the cattleman's paradise and now it is abandoned to the prospector and wild cattle."

Mr. Coolidge describes a round up in general and then begins the description of this one as follows: "Last winter it forgot to rain in Arizona. This applies to most any of the past ten years—but last winter it was special. So the Pinal colony in Tempe decided to wait a month. The cattle were too thin to run without killing themselves and there was no water to feed the beef-herd on when it was gathered. The first of March came—but the grass was too short. On the first of April the colony suddenly decided that it was not going to rain that year and they would better gather the cattle right away before the calves left their mothers and the summer heat set in. So the word went round."

Then came the gathering of the cow boys: "Johnny and Porter rode in from Tempe, Phil and Worth from their mountain canyons, and threw off their saddles at Pinal. First Johnny rode out over the Mesa to the valley where his mare Mag ran wild. It took half a day to rope Mag and the other half to shoe her forefeet. It took another half day for four men to shoe her hind feet and cinch a pack saddle on her so it would stick. Then with a heavy pack to break her spirit and with her head tied to the tail of a more sober pack horse, Johnny's Mag trailed along behind the procession to Apache Leap." The above mentioned Johnny, Worth and Phil are Johnny Jones, Worth Bellamy and Phil Nichols.

Asthma and Hay Fever Cured.

The truly marvelous cures of Asthma, which are being effected by Dr. Schiffmann's Asthma Cure certainly call for notice.

Rev. C. L. Taylor, of Washburn, Ill., says: "Some 7 years ago my wife used several packages of your Asthma Cure which resulted in a permanent cure."

A Hay Fever sufferer writes: "I have been a sufferer from Hay Fever for over 20 years, and it seemed harder every year. The first night I used your Asthma Cure I was greatly relieved. It cured my cough after using a few times. I shall recommend it to all sufferers of Hay Fever." Mrs. Martha Simerson, Laingsburg, Mich. Sold by all druggists at 50c and \$1.00. Send 2c stamp to Dr. R. Schiffmann, Box 88, St. Paul, Minn., for a free trial package.

YUMA COUNTY POLITICS

The Situation Looks Good From a Republican Viewpoint.

Surveyor General F. S. Ingalls returned yesterday morning from Yuma where he went several days ago on official business. Mr. Ingalls formerly resided in Yuma county for many years and has always been considered one of the republican warhorses in that part of Arizona. His opinion concerning matters political in Yuma county is therefore of general interest.

Mr. Ingalls says that the outlook for republican success at the coming election is particularly bright. A great many of the farmers in the Colorado bottoms came to that section from Texas and other southern states that have been distinguished for their democratic sentiment and two years ago it was no use for the republican campaigners to try to do anything with them. But republican clubs are now being organized down the valley and the sentiment seems to be noticeably changing. This is in brought about in large measure by the personal acquaintance the people have with Mr. Fowler, the republican candidate for congress and Judge Kibbey, the chairman of the central committee. The people of that section are vitally interested in the work of the reclamation service and they are fully aware of Mr. Fowler's connections with that service and the interest and sympathy of both he and Judge Kibbey in the Yuma project. There is general good feeling that it is believed will materialize very greatly to Mr. Fowler's interest on election day.

Neither party has held its county convention yet, but it seems to be generally expected that the republican nominee for the council will be Harry Dunlap, who has served in that body from another county and thus has his democratic opponent will be W. E. Timmons, the present district attorney of Yuma county. Little has been said concerning the probable candidates for the lower house.

Among the democrats there seems to be considerable factional fighting over the county ticket, especially in respect of the recorder's office which has now been held for two terms by Tom Cronin, a former resident of this city. There is one element of the party that thinks the office should rotate a little bit and the other faction is satisfied with the present incumbent. The fight may develop into an open rupture.

The democratic candidate for sheriff will probably be John E. Devine and the republican candidate it is believed will be W. H. Buck. Many Phoenix people will be interested in that race for both men were formerly residents of this city, both worked at one time or another in the mechanical departments of all the Phoenix dairies during their residence here, and both moved to Yuma and were not married. Mrs. Devine was for some years editor of the Yuma Sun and Mr. Buck went to Yuma first as a guard at the territorial prison but is now engaged in mercantile.

HOW TO MEND STOCKINGS.

Mothers! may I ask you how much of your life is spent in mending stockings that were only made to sell? Just think it over. The Winch Mills Hosiery are made to wear, and will wear twice as long as others with one quarter the mending. Figure it up. This saves you eight stitches in nine. It's serious in this stocking matter. Hold your orders tight. I call or drop a postal. J. G. McKibbin, Mgr., 308 N. 5th street.

TIRED OUT.

There's many a farmer's wife sits on the porch in the growing shadows of a summer evening, knowing to the full what it is to feel tired out; as if there was not another ounce of effort left in her. But she knows how sound her slumber will be and how refreshed the morning will find her. That's the tiredness of a healthy woman. But it's another thing for the sick woman to feel tired out. Rest only seems to increase her suffering. Just as in profound silence a discord jars the ear more forcibly, so now that she has stopped moving about, this tired woman feels more acutely the aching back and throbbing nerves.

Sick women, hundreds of thousands of them, have been made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I cannot tell what I suffered for thirteen years with uterine trouble and dragging-down pains through my hips and back," writes Mrs. John Dickson, of Greenell, Astoria, Ore. "I can't describe the misery it was to be on my feet long at a time. I could not eat nor sleep. Often I wished to die. Then I saw Dr. Pierce's medicines advertised and bought I would try them. Had not taken one bottle till I was feeling well. After I had taken five bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' I was like a new woman. Could eat and sleep and do all my own work."
